

INSERT HOPPER SPREADERS

8HDV-P-E/BV

GENERAL SPECIFICATIONS

Width: 50 inches
 Length: 8 feet
 Height: 35 inches
 Weight: 855 lbs.
 Capacity: 2.0 cubic yards
 Spread Width: 4 to 30 feet*

- Fits most standard 3/4 to 1-Ton pickup truck beds**
- One piece polyethylene hopper resists corrosion to provide longer life and less downtime
- Swing up spinner assembly simplifies clean up and storage
- Patents pending

*Approximate width: spreading results may vary
 **Never exceed the load capacity of your truck. Check your owners manual.

STANDARD WIRELESS CONTROLLER
 Standard equipment on gas models.

Magnum Spreader introduces the new 8HDV-P-E/BV Corrosion Resistant Conveyor V-Box Spreader. This one-piece polyethylene hopper fits most standard 3/4 to 1-ton pickup truck beds and provides all the robust performance qualities of conventional V-Box spreaders with less weight, greater capacity, longer life and less maintenance. What this means is more time on the road spreading and less time reloading.

Optional Equipment

- Nylon Strap Mounting Kit
- Tarp Kit
- Pre-Wetting Kit
- Larger Wireless Pendant Controller

Features	Benefits
Performance Advantages	
Triple crimped top edges and four body side supports	Provides durable construction and longer life
Heavy duty stainless steel swing up spinner	Simplifies clean up and storage
Durable one-piece polyethylene hopper resists corrosion	Leads to longer life and less downtime
12 V sealed, electric motor	Provides smooth, quiet operation for spreading salt in neighborhoods or noise sensitive areas
45 degree slope on hopper sides	Allows free flow of materials to conveyor
Inverted V	Keeps material from bridging
Briggs and Stratton models available with wireless remote	No wire harness means easy installation and interchangeability between vehicles
Productivity Advantages	
Replaceable stainless steel conveyor floor	Easily serviced and maintained
Comes fully assembled and ready to install from the factory	Reduces installation time and cost
2 cubic yard capacity hopper	Greater capacity means less stops to reload material
10 year limited warranty†	Magnum stands behind the durability of their hoppers
Safety Advantages	
Overlapping baffles	Provides safe spreading with controlled spread width
Top screens	Provides increased safety and reduced maintenance

Heavy-duty 12V Electric Motor – 8HDV-P-E

Briggs and Stratton 10.5 h.p. Engine – 8HDV-P-BV (includes standard wireless controller)

MORE PRODUCTIVITY

The 2.0 cubic yard capacity is 37% larger than other poly hoppers which means less time reloading – more time spreading.

EASY MAINTENANCE

The swing up spinner assembly simplifies clean up and makes seasonal storage much easier.

†10 year limited warranty applies to hopper only.

Battery not included with gas-powered units.
