

INSERT HOPPER SPREADERS

844/1044MDV

844-MDV-DE – Dual Electric Motor

1044-MDV-B – Briggs & Stratton 10.5 hp Engine

1044-MDV-H – Honda 11 hp Engine

GENERAL SPECIFICATIONS

Width: 70 inches
 Length: 10 feet (1044) 8 feet (844)
 Height: 44 inches
 Weight: 1570 lbs.
 Capacity: 4.5 cubic yards
 Spread Width: 4 to 30 feet*

- Designed for 15,000 lbs.+ (GVW) trucks**
- Designed to give increased capacity and performance for the heavy duty and super duty truck operator

*Approximate width: spreading results may vary

**Never exceed the load capacity of your truck. Check your owners manual.

STANDARD WIRELESS CONTROLLER

Standard equipment on gas models.

Magnum's Insert Hopper Spreaders are designed to bring volume and versatility to your fleet with increased material capacity for the heavy duty and super duty sized trucks (15,000+ GVW). These spreaders are available with flexible power supply options and can be either engine or electrically driven. As with all Magnum products, we include the most valuable spreader features as standard – not special add-ons.

Features	Benefits
Performance Advantages	
Extra capacity for the demands of the heavy duty user	Increased profitability and performance; fewer trips to the salt pile
45 degree slope on hopper sides	Improves spreader operation by ensuring materials flow to the conveyor
Flip up spinner	Simplifies clean-up and storage
Briggs and Stratton and Honda models available with wireless remote	No wire harness means easy installation and interchangeability between vehicles
Productivity Advantages	
50% increased material capacity vs. standard PV	Increases productivity and minimizes number of reloads
Spring loaded front idler adjustments	Allows for smoother conveyor operation; lets sprocket move if there is a jam in the conveyor
Replaceable conveyor floor	Easily serviced and maintained
12 gauge stainless steel sides/ends	Provides durable and long lasting construction
Self-cleaning pintle style conveyor chain	Easily serviced and maintained providing longer conveyor life
Safety Advantages	
Drop N Loc top screens	Provides increased safety and reduced maintenance

Optional Equipment

- Nylon Strap Mounting Kit (Part # 62562)
- Pre-Wetting Kit (Part # 64131)

SPRING LOADED FRONT IDLER ADJUSTMENTS

Allows for smoother conveyor operation.

Battery not included with gas-powered units.
